

ACT Psychological Flexibility + Values Check-in (Original)

Empty questionnaire

Instructions

Use the last 7 days. For items 4,5,6,7,9,11,12 higher is better; for others higher means more difficulty.

Items (score 0–4)

1. I get hooked by my thoughts and treat them as literal truths
2. I avoid feelings or sensations even when it costs me
3. When uncomfortable, I abandon what matters to me
4. I can notice thoughts/feelings without having to act on them
5. I can make room for discomfort in service of values
6. I know what I want to stand for in key life areas
7. I took at least one values-based action this week
8. I feel stuck in worry/rumination loops
9. I feel present and engaged in what I'm doing
10. I judge myself harshly when I struggle
11. I can return attention to the present when distracted
12. My behavior is mostly 'toward moves' rather than 'away moves'

Notes

This instrument is original and intended for training/demo purposes. It is not a diagnostic tool.

If any risk-marker item is endorsed (high), escalate to a licensed clinician and local crisis pathways.
